

EXPERIMENT-5

Title: 5. Use of different SQL clauses and join

Objective: To understand the use of group by and having clause and execute the SQL commands using JOIN

1. Write the SQL Queries for the following queries (use emp_table and dept_table of Experiment 4).

1. List the Deptno where there are no emps.
2. List the No.of emp's and Avg salary within each department for each job.
3. Find the maximum average salary drawn for each job except for 'President'.
4. List the department details where at least two emps are working.
5. List the no. of emps in each department where the no. is more than 3.
6. List the names of the emps who are getting the highest sal dept wise.
7. List the Deptno and their average salaries for dept with the average salary less than the averages for all departments.

2. Execute the experiment 4 using sql join.
